Timothy G. McNally, D.O.
Comprehensive Ophthalmology
Specializing in Cataract Surgery

Dear valued patients:

We would like to make our patients at Center Road Eye Institute aware of some changes.

First that Dr. Mary Espy, O.D. is no longer with our practice. Dr. McNally, D.O. will not abandon any of the patients that come to this office. The staff will continue to make your appointments at our office if you choose to do so.

Please be patient with our staff while we are making this transition and rescheduling appointments. We do not have any information regarding where Dr. Espy is employed.

Center Road Eye Institute and Dr. Timothy McNally will continue to provide individual eye care to his patients with honesty and integrity.

Second our Optical department is now under new management and is striving to become more competitive with eyeglasses, contacts and vision aids to ensure affordable costs for your specific vision needs.

Lastly a shout out to Dr. Timothy McNally, D.O. in recognition of Chief of Ophthalmology at Hurley Medical Center!
